

**Licensure by State - Teacher Education**

\*States/jurisdictions where Averett University's education curriculum meets requirements for professional licensure or certification are listed below. NASDTEC provides additional information on out-of-state licensure.

**\*IMPORTANT NOTE TO PROSPECTIVE TEACHER CANDIDATES:** Each state is responsible for its own certification/licensure requirements, which may change without notice to NASDTEC or your university's certification officers or your state's office of certification. You must contact the office of certification in any state to which you may be relocating to get the most accurate information on certification requirements. Some states have specific requirements beyond the basic academic conditions for education licensure, such as a different test, cut score, fee, or additional requirement. **One important guideline is that reciprocity is always easier if you completed the certification requirements and obtained your teaching credential in the state where you completed your program requirements.** Candidates who complete Averett University's teacher licensure programs are eligible for a teaching licensure with the Virginia Department of Education.
